

Buckinghamshire Healthcare NHS Trust
Post-op Cataract Portal

Dear Optometry Colleagues

As of June 2024, after liaison with the LOC and BOB ICB, BHT has gone live with the Medisight Community Cataract Post-op Portal. Patients attending for cataract surgery at BHT will be given a printed letter to take to their optometrist with a unique PIN code and a link to the secure Medisight Portal. This will enable us to collect post-op visual acuity and refractive outcome data and your assistance with this is much appreciated.

The portal is not to be used to refer patients back to the trust – please use the existing pathways for both urgent and routine referrals back to BHT.

The LOC have produced an updated invoice template to claim payment for completing these at £10 per return from the ICB at the same time as claims are submitted for Direct Cataract Referrals.

Many thanks

Mr Christopher King MA (Cantab) MB BChir FRCOphth PGDipCRS
