

Attend our special CET event!

Join us later this month as Visioncall host a virtual CET event featuring a special guest speaker, Mr Jyotin Pandit (Ophthalmologist).

This special event will offer 2 CET points to all those attending. It will be held on Tuesday 27 July at 6:30 pm via Microsoft Teams.

We will cover a range of topics aimed at delivering patient-centric eye care, including:

- Overview of the mental capacity act and determining a person's best interest in a care home setting
- Cataract referral and surgery for a resident living with dementia
- How vision impacts dementia
- Update on AMD treatments and referrals

Visioncall is delighted to open this CET event to all interested individuals. Even if you are not currently part of our existing staff, we will be delighted for you to attend.

We look forward to seeing you there!

How to attend

If you are interested in attending our CET event, please email CET@visioncall.co.uk with your name, email, and GOC number.
