

MY-OPIA ... YOUR REFERRAL

SPoA Paediatric Teaching: My-opia, Your Referral

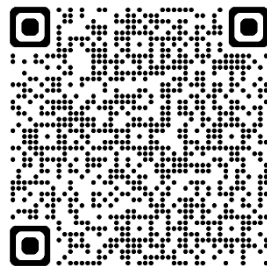

Wednesday 20th November 2024 19:00-20:15

The Single Point of Access (SPoA) service aims to improve the efficiency of the referral pathway, provide feedback loops for community optometrists, and offer CPD-accredited educational sessions – all contributing to better patient care.

Consultant Ophthalmologists, Ms Annegret Dahlmann-Noor (Moorfields Eye Hospital) and Mr Rohit Jolly (Royal Free Hospital), will be leading a session on paediatric ophthalmology including myopia control and referrals for paediatric cases.

The event will take place online and you can register for the event for free.

Please contact eyeadmin.ncl@nhs.net if you would like to suggest topics for further sessions or have any queries relating to the educational session.

We look forward to seeing you - The SPoA Educational Team: Julia, Rachel, and Sejal
